# R You Ready for Some R & R?:

An Intro to R Programming & Data Analysis

Laura Walker

Northeast Association for Institutional Research Tools to See Workshop Series July 28, 2020

# Why R?

- Started working with R in 2016
  - The work I need to do can **not** be done in Excel.
  - Getting data from various sources
  - Cleaning the data
  - Transforming the data
  - Communicate inferences
- Plus—it's free!

## **Learning Outcomes & Outline**

- Become familiar with the R environment and customize it
- Load data into the R environment from the computer and internet.
- Perform a variety of analytic functions on IPEDS data
  - Renaming
  - Rearranging
  - Sorting
  - Filtering
  - Creating new variables
  - Summarizing

## Software

- You'll need BOTH of these software:
  - R for Statistical Computing
  - RStudio Desktop
- For this session, we'll primarily use RStudio.

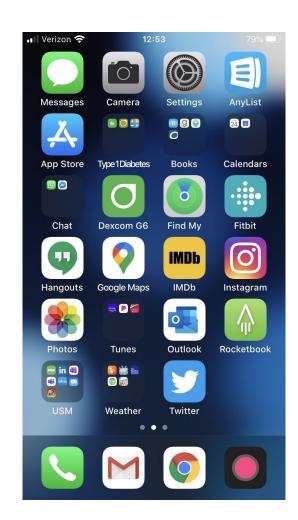

# Why both?

- R for Statistical Computing allows RStudio to run.
- RStudio is an integrated development environment (IDE) that provides a more user-friendly way to code in R.

# R Packages

- Think of packages like we may think of apps on our cell phones.
  - RStudio is the cell phone.
  - Packages are its apps.
- Packages have a similar focus:
  - Manipulating Data
    - dplyr
      Allows us to subset, summarize, rearrange and join datasets.
  - Visualizing Data
    - *ggplot2*—Allows us to create impressive graphics after analysis is conducted
  - Reporting Results
    - RMarkdown—Allows you to store reproducible code and can produce Word, PDF

## R Files

- Two types of files beginners often create:
  - R scripts
  - Rmarkdowns

#### Why?

- Personal preference—chunks
- Reproducible
- "Knitting" the file together to get HTML, MS Word, PDF, etc.

#### **Example of R Markdown Output**

### **Example of R Markdown Output**

#### Bachelor Degree Counts, 2015-2019

USM Institution	2015	2016	2017	2018	2019	Pct. Diff. from 2015 to 2019
BSU	801	832	713	781	826	<b>↑</b> 3.1%
CSU	416	464	421	399	378	<b>↓</b> -9.1%
FSU	1,032	964	1,060	1,027	1,078	<b>1</b> 4.5%
SU	1,935	1,982	2,026	1,872	1,805	<b>↓</b> -6.7%
TU	4,422	4,428	4,628	4,609	4,619	<b>1</b> 4.5%
UB	694	721	755	711	615	<b>↓</b> -11.4%
UMB	333	399	416	433	438	<b>↑</b> 31.5%
UMBC	2,432	2,521	2,572	2,578	2,658	<b>↑</b> 9.3%
UMCP	7,166	7,253	7,292	7,559	7,768	<b>↑</b> 8.4%
UMES	577	574	514	482	508	<b>↓</b> -12.0%
UMGC	5,240	5,638	5,883	6,206	6,346	<b>↑</b> 21.1%
Total	25,048	25,776	26,280	26,657	27,039	<b>↑</b> 7.9%

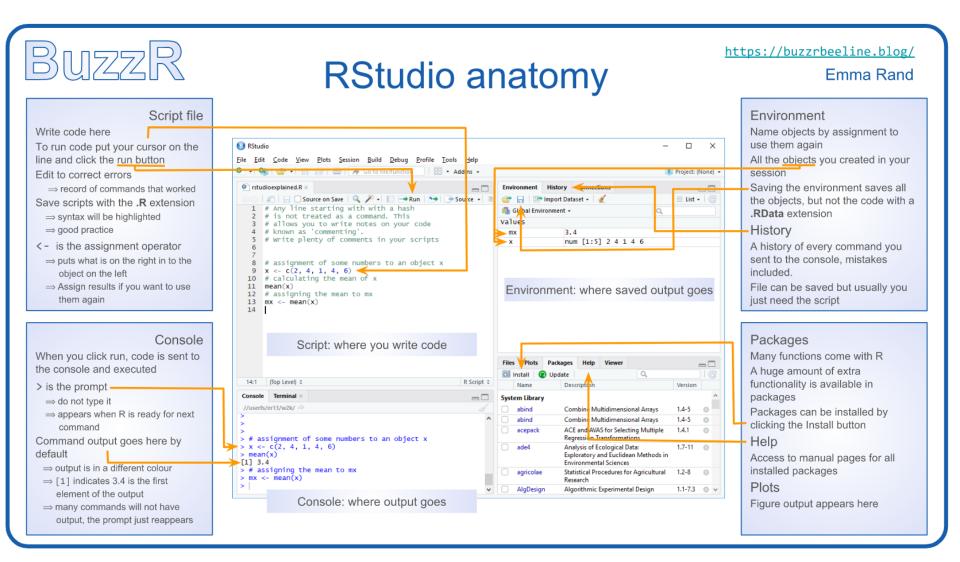

#### Master Degree Counts, 2015-2019

USM Institution	2015	2016	2017	2018	2019	Pct. Diff. from 2015 to 2019
BSU	304	337	313	245	252	<b>↓</b> -17.1%
CSU	75	77	78	74	66	<b>↓</b> -12.0%
FSU	235	217	268	221	208	<b>↓</b> -11.5%
SU	262	272	308	323	323	<b>↑</b> 23.3%
TU	1,097	974	920	906	887	<b>↓</b> -19.1%
UB	504	523	561	533	436	<b>↓</b> -13.5%
UMB	845	887	827	921	894	<b>↑</b> 5.8%
UMBC	694	666	631	665	624	<b>↓</b> -10.1%
UMCP	2,562	2,836	2,829	2,929	2,769	<b>↑</b> 8.1%
UMES	46	89	50	52	53	<b>↑</b> 15.2%
